

Foreword to the Expanded Journals

The reader will quickly observe occasional errors in spelling, frequent lapses in proper punctuation, and a regrettable tendency toward repetitious phrasing. Much of the writing was done in haste and under less than ideal circumstances with never a dictionary in my haversack. Rather than edit the raw material of these journals, I have chosen to preserve the immediacy of the impressions, however embarrassing the resulting style. I am proud of all of my colleagues and honored that I was privileged to serve with them.
